Foundation

Who we are

Ododo is a multipurpose creative brand: a fashion store, a design store, an app and a film studio under one name. Ododo means flower: the mark is a chain of rings with a small scalloped bloom at its heart.

Purpose

To give every kind of creative work a home under one recognisable name.

Positioning

Open enough to hold fashion, design, software and film; distinctive enough that you know it is Ododo before you read the name.

- **Bold**
  Heavy strokes, big shapes, one loud accent.
- **Warm**
  Warm paper tones and rounded forms; never cold or corporate.
- **Curious**
  Always looking through a lens: closer, wider, from another side.
- **Precise**
  One weight, one grid, one dot. Few elements, placed carefully.

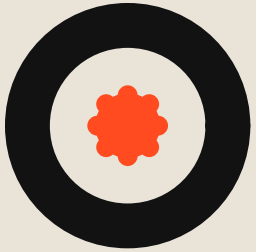

The flower idea

Ododo means flower. The identity grows from that: a small scalloped bloom in the heart of the capital O, a stem rising from each d, and a chain of rings like a row of flowers.

Bloom

Eight soft lobes: a flower seen from above. It is the one point of colour.

Frame

The ring is the bud, the lens and the bloom frame in one shape.

Stem

The letter d rises like a stalk. A stem can carry a bloom on top.

Garden

Rings touching in a row become a garden: many worlds side by side.

The flower is a hint, not a picture. At a glance the logo is still rings and a dot; the petals appear when you look closely.

Voice

Short

Say it in as few words as you can.

- Say: New drop. Out now.
- Not: We are delighted to announce a brand new collection.

Confident

State, do not hedge.

- Say: Made to be seen.
- Not: We think you might like it.

Human

Talk like a person with taste.

- Say: Come and look around.
- Not: Customers may browse our offerings.

Suggested tagline

One name, many blooms.

Alternatives: Many worlds, one bloom. · Made to be seen.

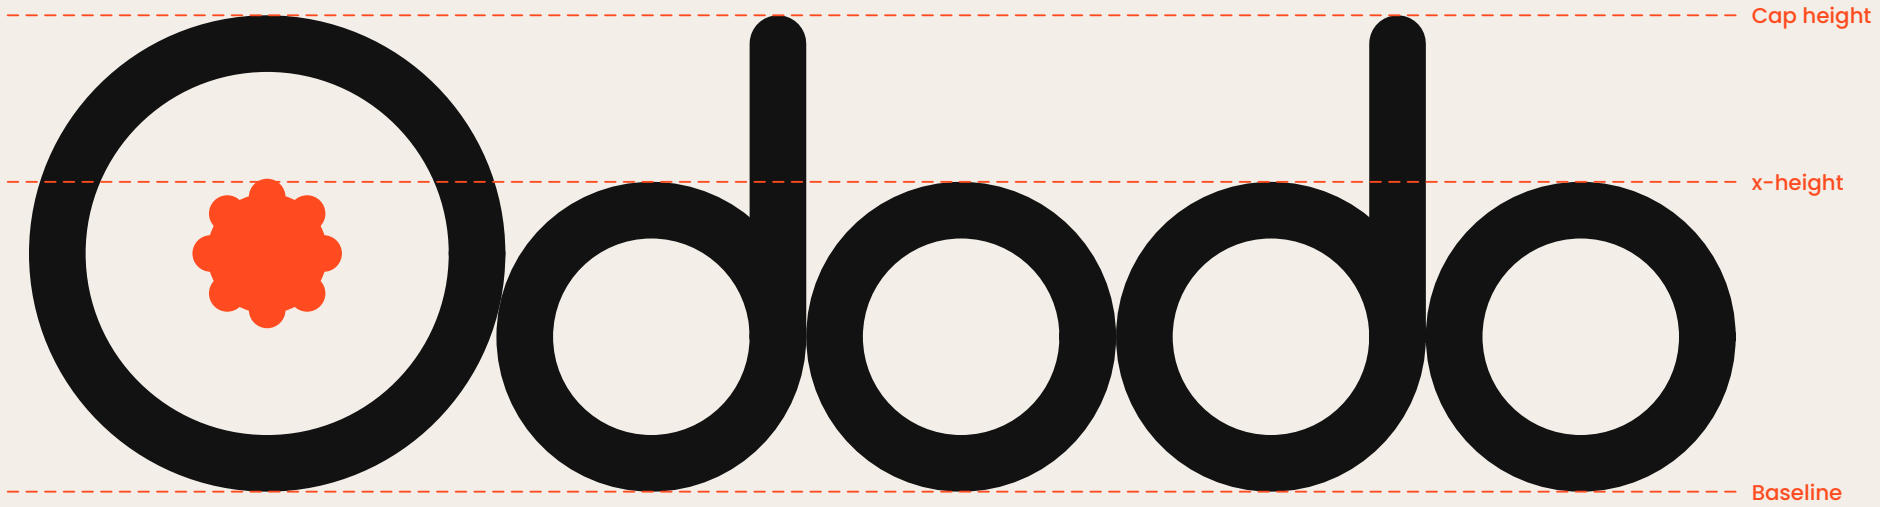

Primary logo

The logo is a capital O followed by "dodo", all drawn from one stroke weight. The orange scalloped bloom sits in the capital O. It is always used as shown; never retyped or rebuilt.
Use the full-colour logo on Paper, Stone or white, and the reversed logo on Ink or Signal.

Construction

Stroke 34 · lowercase ring 186 across · capital O 286 high · bloom 90 across

One stroke

All rings, stems and the cap O use the same 34-unit stroke.

Tangent chain

Every ring touches the next at one point. No overlap, no gap.

Cap O

286 units high: from the baseline up to the stem tops.

Scallop bloom

Eight lobes round a body, about 90 units across, centred in the capital O, always Signal orange.

Do not redraw the logo. Use the supplied SVG files.

Clear space and minimum size

Logo
90 px / 25 mm wide

Monogram
24 px / 6 mm wide

Icon
16 px / 5 mm wide

Clear space x equals the radius of a lowercase ring (93 units). Keep every edge of the logo at least x away from text, images and the edge of the page.

Colour versions

Full colour

Reversed

On Signal

Black

White

On Paper

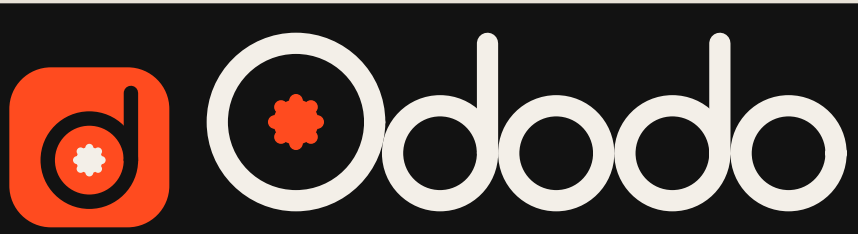

Full colour and reversed are the default. Use the one-colour black or white logo only when printing in a single ink, embossing, or engraving.

Lockups and sub-brands

Horizontal lockup

Icon + logo. Icon height equals the cap O height at 70%.

Stacked lockup

Business lines

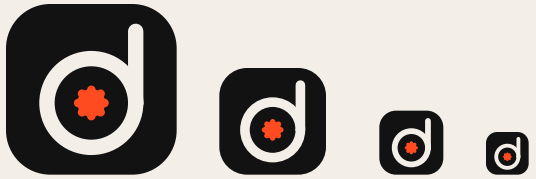

The descriptor is set in Poppins Medium, capitals, letter-spaced +3, left of a hairline. Use it to name a business line without changing the logo.

Monogram and icon

Monogram: the capital O alone

For avatars, stamps, watermarks and loading screens, and wherever the full logo would be too small.

Shown at 64, 40, 24 and 16 px

Icon: the "d" with its bloom

For app icons, favicons and social avatars. Square tiles use a 26% corner radius; avatars may be circular.

Misuse

Do not stretch or squash

Do not rotate

Do not recolour

Do not add shadows or effects

Do not move or restyle the bloom

Do not use low contrast

Do not crowd the clear space

Do not retype it in a font

CMYK values are approximate conversions. Always confirm with a printed proof; for single-colour jobs match Signal to the nearest Pantone orange by eye on the chosen paper.

Proportions and tints

Balance of colour across a layout

Signal is a spark. Use it for the bloom, one button or one highlight per view. If Signal fills a whole background, keep text and logo in Ink.

Tints and neutrals

Signal 100	Signal 70	Signal 40	Signal 15	Graphite	Mist
#FF4B1F	#FF8162	#FFB7A5	#FFE4DD	#3A3A3A	#CFC8BB

Graphite is for secondary text on Paper. Mist is for borders and dividers. Signal tints are for backgrounds behind Signal text or icons.

Rules: always eight lobes, always upright, only in Signal, Ink or Paper. Never below 12 px across. One scallop per view is the accent; more are decoration.

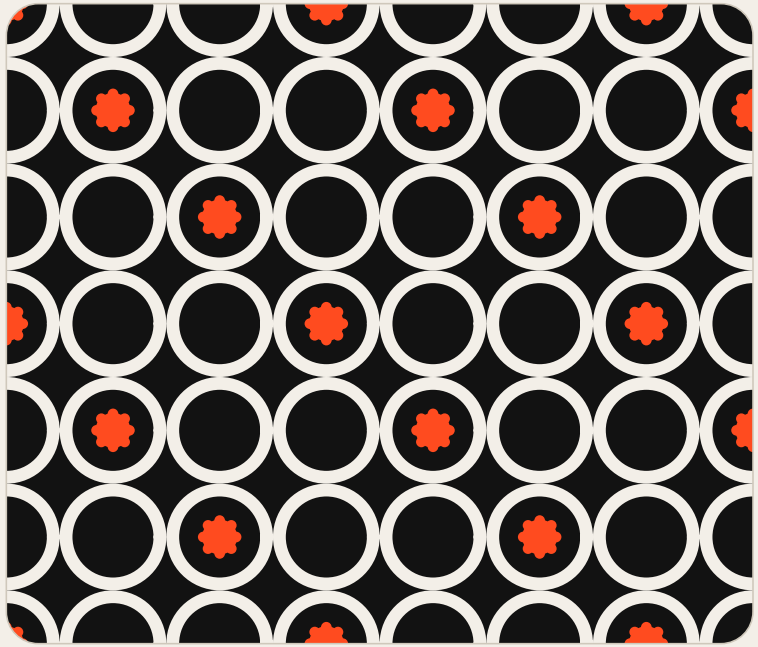

Pattern library - I

Bloom grid

The base repeat: scallops in a half-drop grid, with one in four in Signal.

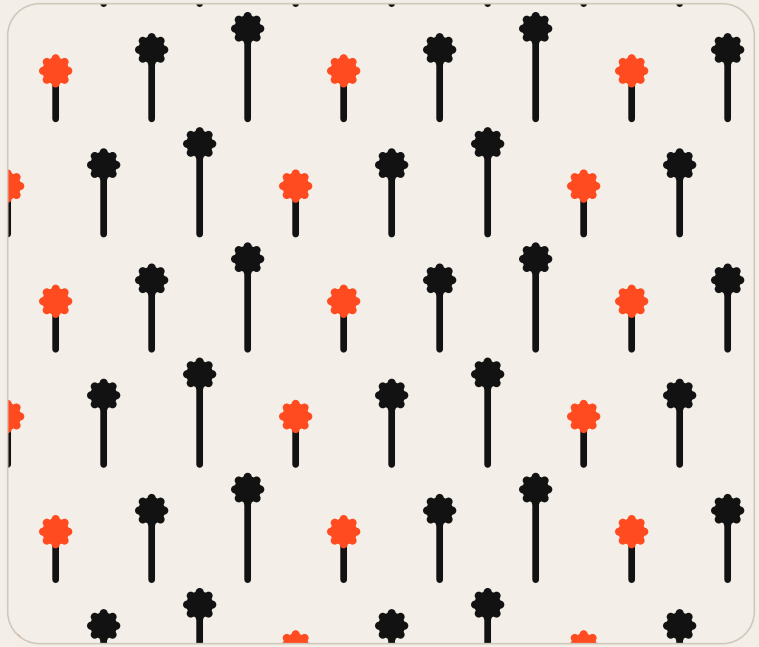

Use: Shirts, linings, tissue paper

Chain

Tangent rings like the logo, with a bloom in every third ring.

Use: Tote bags, packaging bands, web banners

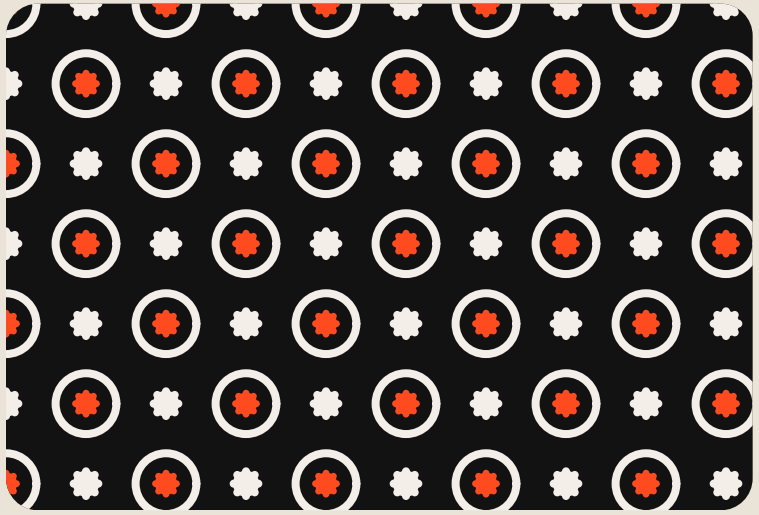

Garden

Stems of three heights topped with blooms, in half-drop rows.

Use: Scarves, kids lines, posters

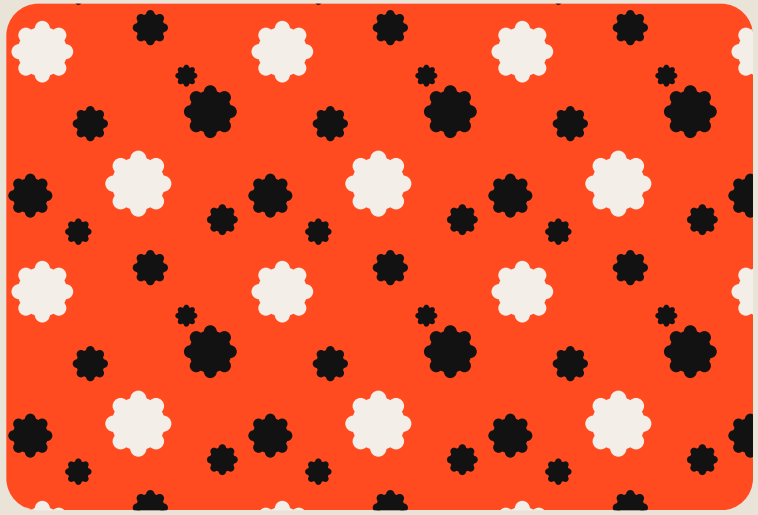

Pattern library – II

Orbit

Rings with a bloom alternate with single blooms, like a chessboard.

Use: Film titles, packaging, wallpaper

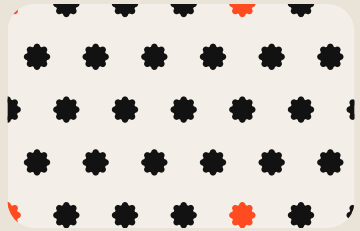

Petal scatter

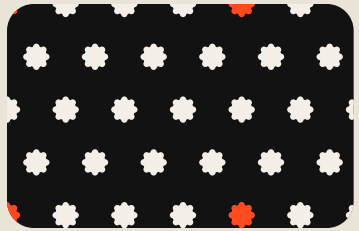

Blooms of three sizes scattered with no grid; the most organic.

Use: Fabric, gift wrap, social backdrops

Colourways

Scene

Light

Warm, natural or studio light. Soft shadows, gentle contrast.

Subject

One clear subject; strong shapes; room for a ring crop or text.

Colour

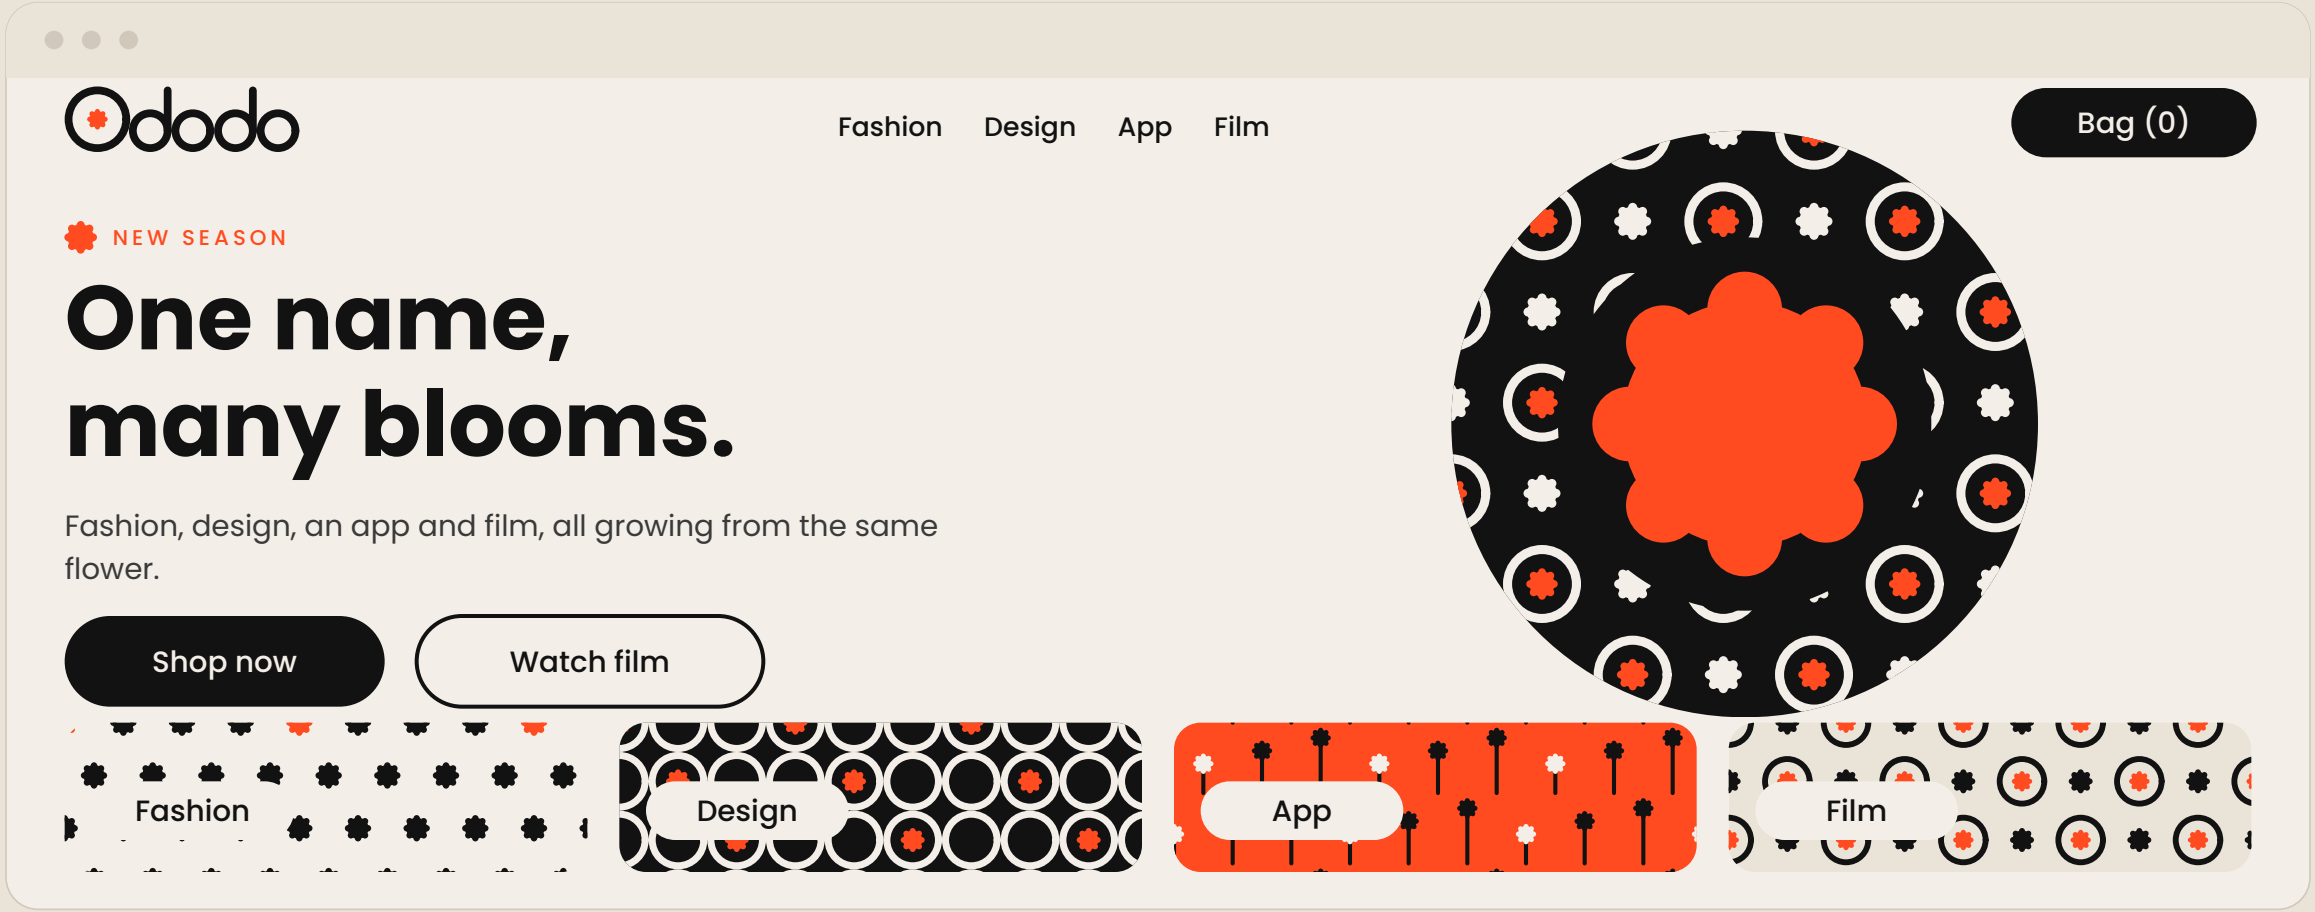

Warm tones that sit with Paper and Stone. Let Signal appear as one real object.

Avoid

Heavy filters, neon, busy collages, stock-looking handshakes.

Photos are cropped to circles or full-bleed rectangles. A circle crop may carry the scalloped bloom on its edge as a small orange mark.

Website - home page

Grid: 12 columns, 1200 px maximum width, 24 px gutters. Signal is for the primary action and the bloom only. Header turns Ink on scroll.

Logo animation

Sequence

The bloom appears small, the capital O draws round it as the bloom opens, then d, o, d, o follow.

Timing

Bloom opens 240 ms; each letter 120 ms apart; hold 600 ms. About 1.3 s in total.

Easing

cubic-bezier(.2, .8, .2, 1) for every move. No bounce, no spin.

Loader

The eight lobes light up one after another, clockwise, 100 ms each, looping.

Reduced motion: show the finished logo with no animation. On dark screens use the reversed logo; on Signal use Ink.
